a combined program
of general education and . . . nursing education

Northeastern University and Massachusetts General Hospital
School of Nursing

BOSTON, MASSACHUSETTS

"We also must provide for the patient of the future a corps of nurses whose goal is to care *about* as well as *for* the patient, a corps of nurses whose caring is strengthened by knowledge derived from education . . ."

The Strength of Knowledge

The new program outlined in this brochure, for which the Massachusetts General Hospital and Northeastern University have combined their resources, provides an enriched curriculum in nursing education. If you have academic ability, you will be able to qualify both for your Diploma in Nursing and for the degree of Associate in Scienee in a period of three years.

Today a wide range of opportunities beckons invitingly to you as an ambitious student nurse.

To prepare yourself for these opportunities and for professional advancement in the years ahead, you will need to undertake a carefully planned course of study and training.

This will equip you with the speeial knowledge and skills essential to effective patient care. It should also inelude a good general edueation with a substantial background in the social sciences and humanities as well as in the physical sciences.

With this kind of preparation you will be able to continue your professional development and qualify for positions in such specialized fields as administration, nursing education, and industrial and public health nursing.

Massachusetts General Hospital

- Third oldest voluntary hospital in the United States
- First general hospital in New England
- National and international leader in:
  patient care
  education for care of the sick
  medical research
- Twenty educational programs with 1,000 patients enrolled; one of the most important is the School of Nursing
- Average number of patients admitted yearly — 25,000
- Average number of patients visiting The Clinics daily — 746
- Bed capacity — 930

The MGH School of Nursing

- Opened in 1873; third School of Nursing in United States
- Total of 4,896 nurses graduated from diploma program
- Accredited by:
  National League for Nursing
- Approved by:
  Approving Authority for Schools of Nursing, Commonwealth of Massachusetts.
- Affiliated with:
  Boston Lying-in Hospital — obstetric nursing
  McLean Hospital — psychiatric nursing

As a student at the Massachusetts General Hospital School of Nursing, you will have unusual opportunities for learning.

Northeastern University

- Founded 1898; largest Co-operative Plan University in the world.

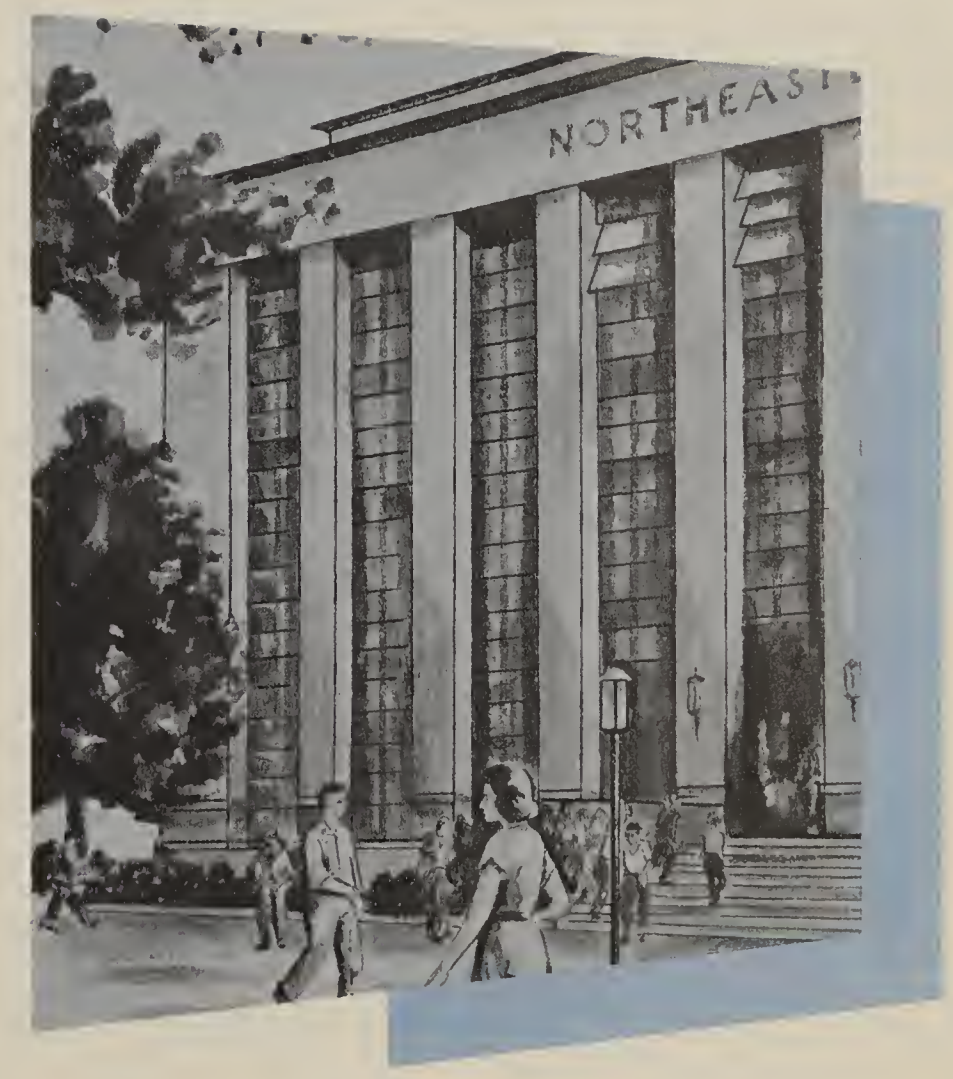
- With a total of 6,000 day and 14,000 evening students, second largest university in New England.

- Northeastern University includes:
  College of Liberal Arts
  College of Engineering
  College of Business Administration
  College of Education
  College of Pharmacy (1962)
  University College
  Graduate School
  Lincoln Institute
  Center for Continuing Education

- Located on Huntington Avenue in the Back Bay section of Boston near the Fenway, in the center of many of the city's most noted educational and cultural institutions and landmarks.

- Educators and businessmen from around the globe visit the University to study its world-famous Co-operative Plan of Education; under this plan students alternate between the classroom and paid jobs in business and industry, and thus are able to earn enough money to pay most of their college expenses during their upperclass years.

- Northeastern is noted as an educational pioneer; the new program of nursing education to be conducted in conjunction with the Massachusetts General Hospital School of Nursing is in keeping with that tradition.



Your First Year

at NORTHEASTERN UNIVERSITY

Class — Thirty outstanding students from the first-year class entering the Massachusetts General Hospital School of Nursing in September, 1962, will become regular members of the freshman class in the College of Liberal Arts at Northeastern University.

Program of Study — English composition, general chemistry, body chemistry, human anatomy, physiology, principles of anthropology and sociology. Introductory course in nursing.

Advantages — Extra year to prepare for the great responsibilities nursing brings.
Extra year to gain cultural and academic background for further study
All the advantages of "college life" as exemplified by more than 70 student activities, social affairs, dances, class elections, and intramural sports.

Housing — Northeastern's new women's dormitory, 129 Hemenway Street, a three-minute walk from the main campus (if you do not live at home); association with students from a number of foreign lands as well as from many states of the Union.

Credits — *You will receive 35 semester hours' credit for your freshman year as a coed at Northeastern University.*

...ed Program

...d by the
...d Registration in Nursing

Your Upperclass Years

at MGH SCHOOL OF NURSING

Class — A special class separate from those students in conventional three-year program but you will share in all School of Nursing activities.

Program of Study — Beginning in summer of 1963 following four weeks' vacation:
FUNDAMENTALS OF NURSING
Microbiology, mental health, public health and sciences taught at the University integrated with Fundamentals of Nursing.

Nursing Experience — Experience with patients beginning in summer of 1963; progress from experience in general medical and surgical nursing to psychiatric, obstetrical, and pediatric nursing; senior experience in comprehensive patient care; team leadership, including opportunity to plan and direct nursing care for a small group of patients, in third year.

Credits — *39 semester hours' credit toward college degree* for studies completed at the MGH School of Nursing.

Evening Course — One evening course at Northeastern University during each of two years at MGH School of Nursing — total of *8 semester hours' credit.*

Degree — Associate in Science
A total of 82 semester hours' credit at the completion of three-year program.

Diploma — MGH School of Nursing
Also prepared for examinations required by Board of Nursing Registration.

Your Expenses

First Year — Northeastern University

You should allow an amount for clothing, incidentals and personal expenses for the freshman year. This amount will vary according to individual tastes and spending habits.

However, your direct college expenses should not exceed:

COMMUTING STUDENT	$1,300
RESIDENT STUDENT	2,150

Your expenses will be distributed somewhat in this manner:

Application Fee	$ 10.00
Tuition	1025.00
Chemistry lab deposit	15.00
Books and supplies	65.00 - 100.00
Insurance	18.00
Personal expenses	100.00 - 200.00
Board and room (if applicable)	840.00

Second and Third Years — MGH School of Nursing

SUMMER SESSION

Tuition	$200.00
Fees	95.00
Uniforms	105.00
	$400.00

SECOND YEAR		THIRD YEAR	
Tuition	$300.00	Tuition	$200.00
Fees	35.00	Fees	60.00
	$335.00		$260.00

The cost of instruction in University College during the second and third years is $22 per semester hour, or a total expense of $88 per year.

Scholarships

Scholarships in amounts up to $1,000, based on ability and need, will be made available to highly qualified young women who otherwise might not be able to undertake the study of nursing under this plan.

Many women's organizations and professional groups, including nursing associations, also make scholarships of varying amounts available for students of nursing. You should investigate to see if any of these might be available for you.

THE BACCALAUREATE DEGREE

Fourth and Fifth Years — Northeastern University

If, after completing the three-year program, you wish to continue your education and qualify for the Bachelor of Science degree through evening courses, you may do so by enrolling in Northeastern's University College. A total of 130 semester hours is required for the B.S. degree as shown in the following summary:

Freshman Year, College of Liberal Arts	35 sem. hrs.
Second and Third Years, University College	8 sem. hrs.
Credit allowed for MGH Nursing Program	39 sem. hrs.
Additional courses needed in University College	48 sem. hrs.
	130 sem. hrs.

If you prefer, you may receive advanced standing in the College of Liberal Arts and earn a bachelor's degree at the University on the Co-operative Plan.

Under either of these plans you will be able to pay all of your college expenses through your earnings as a Registered Nurse.

If you should be transferred to another area, the credits you have earned during the first three years can be presented for advanced standing at other colleges or universities.

Welcome!

Northeastern University welcomes the opportunity to join with the Massachusetts General Hospital School of Nursing in providing a new approach to basic nursing education.

It is a program geared to meet not only your individual needs but those of our nation.

The three-year program provides the general college background in both the sciences and the humanities which will enable you to continue on toward the degree of Bachelor of Science — a degree that many of you will find indispensable if you wish to attain your career goals.

No career offers more opportunities to serve those in need. Few careers demand more than nursing; likewise, few can provide as much genuine satisfaction.

Welcome to the study of nursing and your freshman year at Northeastern University.

Asa Knowles

ASA S. KNOWLES, *President*
Northeastern University

The Massachusetts General Hospital is proud to share with Northeastern University a new program in nursing education.

We believe that courses in general education at the University, added to the three-year diploma program in Nursing at the Massachusetts General Hospital, will enrich the study of nursing and broaden the student's opportunities for personal growth.

Congratulations to those who choose to apply.
